I. COMPETITION OVERVIEW

The Hiawathaland Open and Compete USA Competition will be conducted in accordance with the rules and regulations of U.S. Figure Skating, as set forth in the [current rulebook](#), and/or current Compete USA handbook as well as any pertinent updates that have been posted on the U.S. Figure Skating [website](#).

This competition is open to all eligible, restricted, reinstated, or readmitted persons as defined by the Eligibility Rules.

Skaters must be a currently registered member of a U.S. Figure Skating member club, Learn to Skate USA member, a collegiate club or who is an individual member in accordance with the current rulebook. For non-U.S. citizens, please refer to the [rulebook](#) for more information.

II. ELIGIBILITY

Singles: Excel and Well-Balanced Events:

- Skaters must meet at least the minimum singles test requirements for the event's level. A skater's singles test level may be higher than the minimum requirement.
 - o Skate Up (If allowed at your competition): skaters may skate up one level higher than their minimum test requirement allows.
- Skaters may not register for an event level lower than allowed by their competitive floor. An athlete's competitive floor is set by one of the following scenarios:
 - o If an athlete has a paid EMS series application for the NQS series, the event level registered for in the most recent NQS will become the lowest level they may compete at in any U.S. Figure Skating sanctioned event.
 - o If an athlete has a paid EMS series application for the Excel Series, the event level registered for in the most recent Excel series will become the lowest level they may compete in any Excel event. For Well-Balanced and Specialty events the skater will be permitted to register at one level lower than the "floor" set by their excel series entry.
 - o If an athlete has never had a paid EMS series application in the NQS or Excel series, the athlete may select their level based on their goals and technical skills as long as the minimum test requirements are met.
- Skaters are not permitted to enter an Excel free skate and a Well-Balanced free skate event at the same competition (example: Juvenile Girls Free Skate and Juvenile Girls Excel Free Skate). However, they are permitted to enter an Excel and a Well-Balanced event of different types such as a short program (if stand-alone event option), specialty or showcase events (example: Intermediate Women Short Program and Intermediate Women Excel Free Skate).
- For more details about establishing event levels, refer to information sheet [HERE](#) or email events@usfigureskating.org.

All other singles and partner events (such as Adults, Pairs, Ice Dance):

- Skaters must meet the minimum test requirements for the events level, but not exceed the maximum permissible test requirement.
- **TEST LEVEL - IMPORTANT PLEASE READ!!** It is the coach/athlete/parent and/or guardians' responsibility to ensure the test level the skater has registered for is correct. If the skater has registered for the wrong level, please let the competition chair know and we can update any time prior to the close of registration. If after registration closes the skater is found to be registered for an event level, they do not qualify no changes can be made and skater will be unable to compete. Coaches and Clubs please take extra effort when reviewing skaters' tests levels this year when approving competition registrations in the entryeze system. For more details about establishing event levels, refer to information sheet [HERE](#) or email events@usfigureskating.org.

If you do not find your song in the Songview database, the rights to that song have either not been secured or have explicitly been withheld. In either case, it is strongly recommended that you select a different song that can be found in Songview.
